

SAPG-2856

Copy 3 of 9

7 December 1955

MEMORANDUM FOR : Commo Unit - Project AQUATONE  
FROM : Contracting Officer  
SUBJECT : Problems for Discussion with R-W

25X1A

25X1A [REDACTED] has raised several problems with me which have contractual implications but which first require the technical endorsement of your group prior to contractual coverage.

25X1A The first of these is a beefed-up parts list which I understand is being compiled by [REDACTED] and our Logistics Group [REDACTED] and will be subject to your endorsement prior to being incorporated contractually. I understand that there is a possibility that additional Systems 1 will be required pursuant to the present operational concept.

25X1A The second item is the item of ground support equipment. I understand this includes base duplicating equipment, analysis systems equipment, etc. [REDACTED] has some concern that decisions on this item may be delayed until there will be insufficient time to do the design and development work. Burt states the engineering and design work here is comparable to that on System 1.

25X1A Item three is the problem of an antenna farm and costs associated therewith. [REDACTED] has found a location in Orange County and local approval is being obtained. I will need from you a statement with regard to the technical necessity for such an installation under our contract.

25X1A Finally, the matter of additional space should be discussed with [REDACTED] I will again need a statement from you that project requirements made it mandatory that more space be made available. Although the cost of additional space will be an overhead item, and the manner of amort-

Distribution:

- Orig & 1 - Commo  
3 - [REDACTED] Master ✓  
4 - [REDACTED] Service  
5 - Security  
6 - Logistics  
7 - Finance Officer  
8 - Chrono
